

INTEGRATED MANAGEMENT SYSTEM POLICY - IMS QUALITY, SAFETY, ENVIRONMENT AND HEALTH

SEEPIL, operating in the industrial segment, in the Provision of Maintenance, Calibration, Testing and Technical Assistance Services for Industrial Valves, as well as in the Sale of Valves, Parts, Components and Related Accessories, establishes its Integrated Management System Policy, appropriate to its purpose, organizational context and strategic direction.

Top Management commits to:

- Increase customer satisfaction through the continuous improvement of processes, ensuring the quality and conformity of the products sold and services provided, as well as compliance with customer requirements and other applicable requirements;
- Comply with all laws, regulations and other applicable requirements related to quality, environment, occupational safety and health;
- Protect the environment, including pollution prevention, control of environmental aspects and impacts, and the sustainable use of natural resources;
- Provide safe and healthy working conditions for the prevention of work-related injuries and illnesses, eliminating hazards and reducing occupational safety and health risks;
- Promote the consultation and participation of workers in matters related to occupational safety and health;
- Develop the competence, awareness and quality of life of employees;
- Continually improve process performance and the effectiveness of the Integrated Management System, ensuring sustainability, reliability and satisfactory results for interested parties.
